MEMORANDUM FOR: Chief, Military and Economic Area, CIA/ORR
Chief, DIAAP-1C1A

25X1A ATTENTION: [redacted]

SUBJECT: Soviet Ground Forces and Logistical Installations, Far East Military District, USSR

REFERENCE: Supplement to Requirement No. C-RR4-81,615 (Project No. 11909-4)

1. In response to referenced requirement, IAD/CIA was requested to search the Far East Military District, USSR, to identify and prepare a detailed report on all Ground Force Military and Logistical Installations carried in the Bombing Encyclopidia, annotated on the 200 Series Air Target Charts, or picked up on a scan of the available photographic coverage. A total of 334 possible installations were derived from these sources for evaluation.

2. A total of 112 of these installations were selected and reported in individual reports. An additional 36 installations were combined (see annex A) in 16 reports containing information on two or more installations.

3. No reports were prepared on 136 of the installations (see annex B) for one or more of the following reasons:

a. Absence of photographic coverage.

b. Poor quality, small scale photography.

c. Location of installation within a conjested urban complex.

25X1B [redacted]

4. Fifty of the initially selected installations were negated (see annex C) because they appeared to either non-military in nature or no installation was observed near the Bombing Encyclopedia's coordinates.

5. The mensuration for all reports in this project was performed by analysts in CIA/IAD and not by the NPIC Technical Intelligence Division.

6. This project is considered to be complete.

GROUP 1
Excluded from automatic downgrading and declassification
